SUBJECT: 2002 DoD Maintenance Symposium and Exhibition

The 2002 DoD Maintenance Symposium and Exhibition is scheduled for October 28 – 31 in Reno, Nevada. The event is sponsored by the Society of Automotive Engineers (SAE) and in conjunction with the Office of the Secretary of Defense chaired by Mr. Robert T. Mason, Assistant Deputy Under Secretary of Defense for Maintenance Policy, Programs and Resources. In this initial year of SAE's participation, the 2002 symposium has the potential to be spectacular.

I want to enlist your continued support for the symposium and look forward to your personal involvement in developing the issues to be explored. Additionally, the participation of senior leadership in the DCSLOG Panel has been highly attended and regarded in the past. This panel is again expected to be one of the highlights of the 2002 symposium.

The symposium will include the Secretary of Defense's Maintenance Award Ceremony on Wednesday evening, October 30, 2002 to recognize the top maintenance units for 2001. I hope you can personally represent your Service at the award banquet.

Planning has begun for the 2002 symposium, and I want to ensure the agenda reflects the issues, perspectives and interests of all of the Military Components. Please designate a focal point for your Service by November 30, 2001, to participate in the symposium planning. Forward contact information to Mr. Chuck Field, (703) 697-9067, chuck.field@osd.mil or Captain Bret Gordon, USN, (703) 695-0338, bret.gordon@osd.mil. The kickoff planning meeting will be December 12, 2001. A separate meeting notification will be sent to your designee.

Diane K. Morales

2002 DoD Maintenance Symposium

Break-Out Topics (7)

Original Candidates

1. Maintenance Technologies for Readiness
2. Readiness – The Depot Contribution
3. Maintenance Miracles in Current Operations
4. Aging Systems
5. Leveraging Information to Produce Readiness
6. Readiness-Based Industry Initiatives
7. Reengineering/Reorganizing for Readiness: Maintenance Management Concepts
8. Focusing Partnerships on Readiness
9. Readiness in the Laboratory – Maintenance Research
-
10. Creating Tomorrow's Maintenance Workforce for Readiness
11. Maintenance Human Factors

Final Recommendations

1. Maintenance Technologies for Readiness + Readiness in The Laboratory
2. Readiness -- The Depot Contribution + Partnerships
3. Maintenance Miracles in Current Operations
4. Aging Systems
5. Leveraging Information to Produce Readiness
6. Readiness-Based Industry Initiatives
7. Reengineering/Reorganizing for Readiness: Maintenance Management Concepts
